The New Wadding for your Quilts

We originally started producing the super fluffy 100% wool wadding specifically for friends in the futon and doona business - our range has now extended to wadding for quilts. We

believe that wadding should feel soft to handle so that finishing your

quilts is as enjoyable as making and designing the cover. Discount available for bulk orders check out our online shopping

General

properties of our new quilt wadding are:

- Australian grown
 - Victorian made
 - Price Competitive
 - discount for bulk
 - Needled onto a polyester scrim for manageability, strength and to prevent beading
 - Save time: with 2m wide rolls fits most quilts
 - Stock on hand
 - 160gsm - thicker than other products on the market
- These products are natural and unbleached; seeds, vegetable matter and coloured streaks are a natural part of this wadding

washing instructions:

We recommend hand washing for all your quilts in a phosphate free soap or wool wash. For a flatter quilt preshrink wadding; wash before you put in the quilt. Or if you want the stitching to be accentuated by the slight shrinkage wash after.
